

ART NOUVEAU – HIGHER VALUE PIECES

In this 'Collecting' article this website does not set out to write the history or the detail of the subject. What is attempted is to tempt you the reader into taking an interest in the subject – no more – by showing you examples - giving just a little simple information. If your interest develops then the UK Pewter Society and the Pewter Collectors' Club of America (PCCA) offer in-depth articles on many subjects in this year's and previous years' publications. Therein also resides a wealth of collecting experience. This website is simply for encouragement that the reader might take interest and progress themselves further with it. Though as to Art Nouveau for both of them - it is a little recent and your own web research might be easiest. Prices quoted mean only that they are known sales – today's values may have changed,

ART NOUVEAU AND OTHER EARLY 20TH CENTURY, MOSTLY PEWTER, PIECES – Where likely prices are shown here they are but indications varying from good to immaculate condition. The unusual purpose for this website of showing such probable prices is that this website has concentrated on early British Pewter – and as such this writer was surprised at the interest and values in collecting the pewter of the early 1900s.

Liberty & co Tudric clock made around 1902 design number 099 - designer C F A Voysey Market price today dependant on good

to immaculate condition range say £8000 to £10,000.....
