

WELCOMING GUILD SHIP BY WEYGANG

Added in 2018 – additional information

Additional information from the owner is as follows –

These 3 sails should be seen as a means of medieval advertising

Thus what is on the sails is not important.

A sail for the church, a sail for marriage, a sail for the guild

That was in 1918 pure advertising

This ship has engravings for 3 centuries, only the engraving on the top of the deck is real.

This item was made for a Berlin brewery in 1908

Similar is shown in the Weygang catalogues of those years
